## FEATURES

Monotec 370 has been specifically developed as an extremely strong and stable fabric for use in tension structures and shade awnings. The range offers the perfect combination of the utmost sun protection together with strength and durability to guarantee that your shade structure remains maintenance free and looking new for years longer than other shade fabrics.

Monotec 370 is the jewel in the crown when it comes to shade cloth offering outstanding UV protection from the sun's harsh damaging rays.

Shade sails are a new style of architecture, and Monotec 370 can provide greatly increased living areas at a moderate cost.

Monotec 370 can be used to transform and add a dynamic impact to your outdoor settings for both domestic and commercial applications. As the widest shade cloth on the market, your Monotec 370 sail or structure is more aesthetically pleasing due to the reduction of unsightly seams. Amazingly stylish, Monotec 370 is the ultimate in flexible protection.

Developed in Australia, Monotec 370 is 100% Australian owned and made. Monotec 370 is manufactured using only the highest quality raw materials to ensure that the fabric is "engineered to outlast" other products.

Monotec 370 can be used in virtually any situation where high UV protection is required. When you need protection from our harsh climate then look no further than Monotec 370. There is no other choice when it comes to choosing protection for your family or property.

**Monotec 370 Series** is supported by a 10 year "under tension" warranty.
