TECHNICAL INFO

SPECIFICATIONS		
Product	HORIZON 95	HORIZON METALLICS
Dimensions	Width 300cm, Roll Length 30m	Width 300cm, Roll Length 30m nominal
Total Weight	530gsm	570gsm
Composition	30% Polyester, 70% PVC	20% Polyester, 80% PVC
Construction	37 x 35 weave (2 x 2)	48 x 30 weave (4 x 2)
Tear Strength (AS 3706.3)	Warp 212N, Weft 144N	Warp 95N, Weft 173N
Tensile Strength (AS 2001.2.3)	Warp 2441N, Weft 2558N	Warp 1485N, Weft 2000N
Light Transmission (openness)	5%	7%
Flex Cracking Resistance	400,000+	300,000
Fire Retardant (AS 1530.3)	Complies with BCA requirements. Test certificate available upon request.	
Manufacturing Certification: ISO 9001 Quality Control, ISO 14001 Environment Management System		

MAINTENANCE

TO OBTAIN THE MAXIMUM LIFE FROM HORIZON MESH PRODUCT.

THE FOLLOWING POINTS SHOULD BE NOTED:

1. Keep the fabric clean by brushing regularly both on the top and underside with a soft bristled brush and by hosing occasionally with clear, cold water.
2. Do not apply soaps, detergents, cleaning fluids or insecticides.
3. Keep petrol, oil, solvents, kerosene and other similar fluids away from the fabric.
4. Do not allow bird droppings, or vegetable matter to remain in contact with the fabric.
5. It is important that a HORIZON MESH SANDPIT COVER is allowed to dry after wet weather and should not be rolled up or stowed away when wet.

STUBBORN STAINS: CLEAN THOROUGHLY WITH NON-ABRASIVE HOUSEHOLD CLEANERS, DILUTED RUBBING ALCOHOL OR DILUTED BLEACH - 1:20 concentration.
RINSE IMMEDIATELY WITH CLEAN WATER

The Horizon mesh collection is a versatile range specifically designed for outdoor blinds and awnings. The unique weave combines a functional solution for solar protection with a stylish textured appearance. Designed for Australian conditions, Horizon will create privacy from the outside without compromising the visual aspect.

Horizon mesh is available in 2 qualities. Horizon 95 is the most commonly used and provides an ideal balance between protection and visual aspect. If you're looking for increased privacy and protection, Horizon 99 is the answer.

Horizon was inspired by the Colorbond colour range. The palette coordinates with any exterior to create a seamless finish. This offering caters for traditional colours such as Classic Cream, Paperbark and Woodland Grey right through to the latest contemporary tones like Dune, Wallaby and Ironstone. Whether you want a splash of colour for a contrasting look or a perfect colour-coded match, the Horizon range is your perfect solution.

Reduces heat transmission

Improves air-conditioning efficiencies

Provides UVR protection

Reduces glare in direct sunlight

Provides privacy without compromising the view

Allows moderate flow of fresh air

Mildew resistant

Supported with a five year warranty

The New
STAYPUT™ DOME HOOK

Features

- Horizontal and Vertical models
- Simple to install
- Safe, low profile design ideal for outdoor play areas (ie. sandpits, pools).
- Manufactured in Australia using UV stabilized nylon
- 100% corrosion free
- 7 colours available

Product Description

The Stayput™ *Dome Hook* is the latest addition to the Stayput™ Fastener range. The low profile *Dome Hook* minimizes the risk of being a tripping or snagging hazard when not in use, while still providing a secure anchor point. The Stayput™ *Dome Hook* accepts a 5mm shock cord as used on the Stayput™ *Shock Cord Loop*.

Why was it developed?

The Stayput™ *Dome Hook* Horizontal model was designed to secure fabric covers over sand pits and swimming pools. In many cases a fixing point needed to be installed on a flat surface like paving without creating a tripping hazard or a danger for small children. In some states, sand pits in child care centres, playgroups and preschools are required to be covered when not in use to prevent animals accessing them. Covers on swimming pools can prevent accidental drowning, minimize evaporation and keep leaf litter out. Customer feedback led us to adapt the Stayput™ *Dome Hook* Horizontal to create a Vertical version to secure the bottom of vertical blinds or curtains to a flat surface.

How does it work and where can it be used?

The Stayput™ *Dome Hook* is attached to a flat surface by two 8g countersunk screws. Neatly fitting colour coded plugs then cover the screws giving a clean smooth finish. There is no need to recess the Stayput™ *Dome Hook* into the ground so installation is quick and easy. The Stayput™ *Dome Hook* is suitable for use in many applications including, children's playgrounds, around swimming pools, boat decks, walls, walkways, verandahs etc.....

The Stayput™ *Dome Hook* is proudly 100% Australian made. Stayput™ Fasteners has been supplying the industrial fabric industry for over 40 years and continues to produce a range of secure and corrosion-free fastening solutions for marine & outdoor applications in domestic and international markets.
